

I am an international student currently undertaking a **Master of Social Work (Professional Qualifying)** at **James Cook University in Townsville**. Before commencing my social work studies, I completed a BBA LL.B. in India in 2026, along with a Diploma in International Business and Corporate Laws. My legal education gave me a strong foundation in legislation, policy, advocacy and the way legal and institutional systems can affect individuals and communities.

Throughout my undergraduate studies, I completed several internships across different areas of law. My most recent experience involved matters relating to **domestic violence** and **juvenile justice**, as well as participation in **legal aid outreach in rural communities**. These experiences strengthened my interest in working with people facing disadvantage and reinforced the importance of listening carefully, understanding circumstances in their broader context and approaching complex issues with an open mind.

I was also actively involved in university committees and events, including the **Moot Court Society** and **Legal Resource Cell**, and held responsibility for coordinating event conduct. These experiences developed my communication, teamwork, organisation and leadership skills.

Since beginning my studies in Australia, I have obtained my **Blue Card, NDIS Worker Screening clearance (Yellow Card), First Aid and CPR certification**, while continuing to build my understanding of Australian social work practice.

As an Ordinary Member of the **North Queensland Branch Management Committee**, I would bring the perspective of both a law graduate and an emerging social worker. I am particularly interested in contributing to professional engagement, advocacy and opportunities that strengthen connections between students, early-career practitioners and experienced social workers across North Queensland. I would approach the role with curiosity, reliability and a genuine willingness to listen, learn and contribute.
